

# 7700W Cord Drawn

## Section shown full size

## 7700W Cord Drawn

### Features:

The 7700W cord drawn curtain track is a top-fix track as standard. Its heavy duty white aluminium track is designed for use with large or heavy curtains. Heavy duty roller runners are supplied at a quantity of 12 per linear metre.

### Benefits:

This heavy duty white aluminium track can be used for most large/heavy curtain applications, both commercial and domestic, requiring cord drawn operation. Although best suited for top-fix mounting, this heavy duty system track is designed for large curtain spans in both top and face-fix scenarios. Perfectly suited to bespoke curved opportunities and operated by a positive pre-tensioned cord arrangement. Used regularly in lecture theatres and large stage areas, you will find that this system is an answer to all your similar requirements.

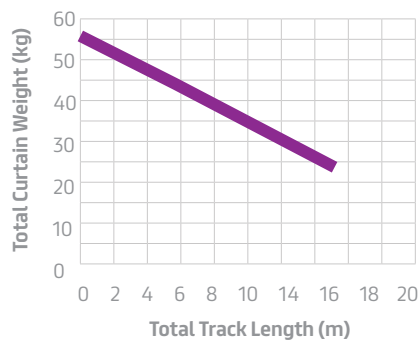

### Options:

Face-fix brackets available. Can be bent. Available in any RAL colour of your choice.

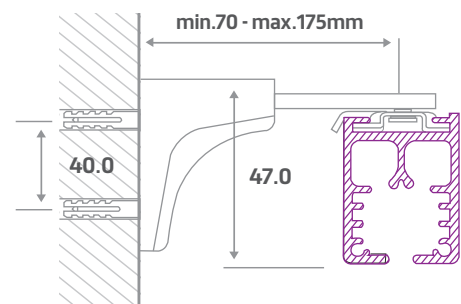

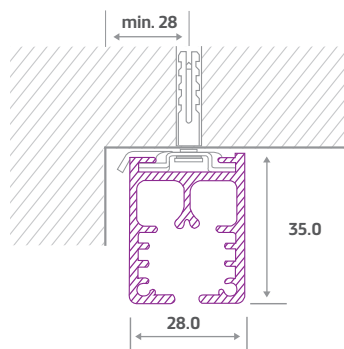

### Specification:

Heavy duty aluminium track with white powder-coated finish and top / face-fix brackets as applicable. Complete with end-pulleys, pre-tensioned operating cord, and heavy duty roller runners at 12 per metre.

### Curtain Weight Guide

8582 roller runner

### lifetime warranty

This curtain track range comes with a full Lifetime Warranty as standard.
